```
C:\ml\L18>python p2.py
```

```
model ready
```

```
enter area 3000
```

```
5.88 crores
```

cs1_hpp_app

The screenshot shows a web browser window with a dark header bar. The address bar displays a back arrow, a refresh icon, a lock icon, and the URL "127.0.0.1:5000". On the right side of the header bar, there are icons for a star, a list, a user profile, and a "Chat" button with a dropdown arrow.

The main content area has a light orange background. At the top, the title "Lonavla Housing Price Predictor App" is centered in bold black text. Below the title, a rounded rectangle contains the following elements:

- The label "Area" in bold black text, followed by a text input field containing the placeholder text "Enter Area in Square Feet".
- A "Predict Price" button with a light blue gradient and rounded corners.

Below the rounded rectangle, the text "21.8 crores" is displayed in bold black font.
